

Citadel Dormitory

Charleston, SC is known for Rainbow Row and Magnolia Plantation. The campus of The Citadel is also known for its Romanesque style of architecture, and the staff at The Citadel wanted to maintain the look and feel of the iconic architecture on their campus. The goal of the project was to create a dormitory that blended seamlessly on the campus. Time to completion was not in the school's favor. With a small window of time available, it was apparent that using modular techniques was the only option available.

To reduce the amount of time spent on site, we constantly reviewed the schedule. Especially with the Covid pandemic, we had to ensure that only contractors' schedules were coordinated to improve efficiency and safety. Vesta Modular's holistic project approach allowed our team to maintain fiscal effectiveness during difficult times. By working hand-in-hand with The Citadel team, VESTA was able to take their concept and create a welcomed addition to their beautiful campus.

HISTORIC MILITARY COLLEGE LOOKING FOR DORMITORY SPACE DURING COVID-19
