

VESTA MODULAR

Urban Infill Affordable Housing

VESTA Modular, in partnership with the developer Place Properties for the Invest Atlanta initiative, was called upon to provide a high quality, efficient, and affordable housing solution. Invest Atlanta is a major initiative tackling the revitalization of the historic Westside Neighborhood in Downtown Atlanta. With our expert capabilities and experience on past Urban Infill projects, it only made sense that VESTA was the go to provider for a turnkey modular housing solution. The homes were built and finished within 30 days, providing a cost effective solution for the neighborhood.
