## JBSA - FORT SAM HOUSTON ADMINISTRATION BUILDINGS

USACE requested a bid for the Repair of Building 2263 at Fort Sam Houston. As part of the bid our team was selected to provide and lease the modular swing space for the project. We provided and installed two new 23,000sf administrations buildings for a total of 46,000sf. Our team was responsible for all work associated with the modular buildings to include the fire alarm and fire sprinklers.
