Major building construction leads to the temporary modular solution.

Medical Turns to Modular Solution

Karmanos Cancer Institute

Karmanos Cancer Institute in Farmington Hills was in need of a temporary solution while undergoing major construction to their existing facility. VESTA Modular was selected as the modular builder to provide over 5,600 square feet of exam rooms with physician and general offices to not disrupt the patient flow and care. VESTA utilized an in fleet solution with the budget and tight time constraints as required by the customer.
