

SOUTH WALTON ACADEMY TEMPORARY CLASSROOMS

Due to growing enrollment, the South Walton Academy was facing issues with space for their students. An on-site addition was due to be completed before the school year started but the contractor pushed the completion date to January 2022. With additional students enrolled and ready to start the 2021/2022 school year and the addition not completed, the administrator faced a dilemma of space and time. With a very aggressive timeline, South Walton Academy reached out to VESTA Modular to see if modular could offer a solution to provide temporary units for the additional enrolled students. Within 5 days, we were able to deliver, set and install 6 of our refurbished modular buildings along with the decks, steps and ramps for accessibility to the classrooms. The South Walton Academy was able to open their new classrooms to their newly enrolled students all before the school year started!

**TEMPORARY
CLASSROOMS
FOR 120
STUDENTS**
